Respected Mr. Dr. Arif Alvi, President of Pakistan.

Subject: Pakistanis living in "Kuwait" are concerned about the "Regime Change" in Pakistan.

Keeping in mind all the etiquette, we request that this act of "**Regime Change**" with the help of foreign aid in Pakistan seems to be a great conspiracy against our dear homeland. And our national solidarity demands an independent investigation into this conspiracy and interference. This intervention has not only damaged Pakistan's international reputation but also created a gulf of mistrust between national security, sovereignty, and most importantly the people and institutions. Which is causing mistrust among the people and especially the youth. This time the enemy has killed not two but several victims with one arrow. Therefore, this matter needs to be taken very seriously.

As Pakistani citizens, we are concerned and deeply saddened by the external interference in the internal affairs of Pakistan and we strongly protest against it. We further demand that you arrest all those suspected of involvement in this shameful act and conduct an independent judicial commission to investigate them following the requirements of justice. And all those found guilty of this heinous act should be sentenced to death for the serious crime of treason against the state.

We Pakistanis living abroad are worried about the arrival of an imported government in the country that this imported government will not allow this heinous conspiracy to be exposed to future generations. And through a harmless commission will influence its research and keep the facts and conclusions hidden from the nation. This will extinguish the natural light and hopes of the people and especially the youth. If this happens, it will be tantamount to endangering the integrity of the country. Now, these brave and conscious young men will not allow anyone to do such a thing even if this so-called gang has got outside help. Pakistani youth are now ready to pay whatever price they have to pay for their intellectual freedom and sovereignty and the integrity and security of the country.

Our zealous and loyal forces are fulfilling their responsibility of protecting the integrity and geographical borders of the country and the nation are confident and proud of them. Similarly, the responsibility of protecting the ideological frontiers of the country rests jointly with the President of Pakistan who is also the Supreme Commander, and with the people. As a public representative, I can confidently say that the people have decided to stand in the right direction of history under your leadership. Trust me, the nation will not disappoint you.
