Subject: Debt-free country trading strategy:

first of all, I would like to draw your attention that Under the umbrella of CWAK a (community welfare association Kuwait) whose mission is to serve humanity without a cast, color, creed, religious or geographical boundaries. Please accept our hearty congratulations on the historical bold and wise decision After the Taliban took control of the country on August 15, 2021, to liberate the Afghanistani as a nation. we also acknowledge, admire, and agree with your decision to seek close friendly ties with China and Pakistan. It is said a poor and weak neighbor is much better than a strong friend who parked away by the ocean. The better and very dignified way forward for a great nation and a bold step by the Islamic Emirate Government.

we realize that a newborn state has a multi and difficult task ahead of them and finance is top of it. Sometimes it becomes mandatory for the head of the state to fulfill the country's various requirements and borrow funds from the friends on short terms which could be a healthy sign and strengthen the ties between the countries. Debt is an invisible kind of slavery, which is worse than physical slavery. Allah, the all mighty has blessed you with opportunity and empowered you to introduce and implement an interest-free economic system to the best of your capabilities. Early detection of slavery and cures depend upon a revolutionary healthy mind, body, and progressive society. which Islamic Emirate government decision has proven that.

We take this opportunity to offer our financial consultancy services and share our knowledge with our brother country to rescue them from debt permanently. We would like to present an interest-free trading strategy to make a debt-free country.

We are looking forward to an opportunity to meet and present. this is how an Islamic Emirate can bring a paradigm shift to the existing scenario and lead the ummah.
