Subject: **Criminal invasion in Kashmir by India, stop killing of innocent Kashmiris. India scraps article 370-35A – Denial of right to self-determination.**

Dear Sir/Madam

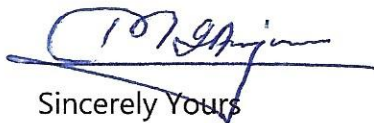

On behalf of CWAK, (Community welfare Association Kuwait) we would like to attract your attention to the most inhuman seizure on paradise known as Kashmir. Where naive innocent human beings are butchered without any mercy of life, adult, newborn or teenager.

That is the sanctimonious responsibility of all competent authorities to safeguard life wherever it may exist on the earth.

Therefore, you are petitioned to take severe notice on current human rights violations in Indian occupied Kashmir. The elected regime in India is solely responsible for Muslim genocide happening in Kashmir and with this unmerciful act they placed the peace of the earth at stake. The scraping of article 370-35A is a violation of UN Security Council Resolutions (UNSCR-47) and an evil effort of the government to change Indian-Occupied Kashmir's Muslim-majority demographics. Kashmir has become a nuclear flashpoint between two neighboring countries and the consequences of such conflict will not be regionally but globally in nature.

Therefore, it is our humble submission to your office to intervene in the matter stated above before it gets too late to control and evaporate peace from the earth.

Looking forward to the timely decision of your good office that will not only save the lives of the millions of men but humanity to reestablishes peace in the world, particularly in the region.

Sincerely Yours

Chairman  
Muhammad Iqbal Anjum  
CWAK

President  
Eng. Arshad Naeem Chaudhry
