To: His Excellency Mr. **Rajab Tayyip Erdoğan**
The President of The Republic of Turkey

Subject: Allah will not change the condition of the people as long as they do not change their status themselves.

Dear sir,

On behalf of the (CWAK) Community welfare association Kuwait, would like to present gratitude to your sincere and dedicated efforts. We have listened to your recent speech at the KUALA LUMPUR summit, vouching in a congregation of a few compatible Muslim countries on a common objective. The real concerns of the Ummah raised by you, are the facts of life. You have very rightly stressed upon adopting self-reliance policy through the barter trade system among the like-minded countries.

The Seven Pillars proposed by your good-self are the KEY to success for the Ummah like, (Development & Sovereignty, integrity & good Governance, Culture & Identity, Justice & Freedom, Peace Security & Defense, Trade & Establish Investment & Technology & Internet Governance).

Sir, if you allow us to add into your seven pillars **An interest-free economy system** & we are allowed to a presentation on the **Interest-free economy system based on Quran** that would lay the concrete foundation to build an economically strong Ummah under the Quranic guidance.

Sir, the seven essentials you proposed to the Ummah are highly commendable and achievable. We endorse and appreciate your bold initiative, bonding the Ummah on strategy and advance technology and reaffirm that you moved in the right direction at the right time.

Sir, you have very correctly highlighted the weakness and the solution in the most appropriate self-sustained skeleton to upgrade and strengthen the Ummah's working relationship.

However, we would like to thank you for leading our Ummah from the front and reiterate your golden words "A Small step you have taken will be the beginning of a lengthy and fruitful journey with the rest of the Ummah".

With best regards.
